

This is the only non-commercial Christian station we receive and we listen regularly for the meaningful message of Truth and inspiration heard in the music. Many young people in addition to my son listen to this station, and the message is so superior to most of the music on radio stations; this alternative wouldn't be available should the LPFM be enacted. This small community doesn't have many resources; we need K-LOVE. It is certainly in the public interest to offer wholesome and uplifting opportunities to all of our citizens and particularly our youth. Thank you for your consideration.
